JUNIOR SOFTWARE DEVELOPER

I am Absra Girma, a junior software developer with a degree in Computer Science and enginnering (CSE). Through my academic studies and internships, I have gained experience in programming languages and technologies. As I embark on my career, I am eager to learn and grow in the field of software development.

EXPERIENCE

JUNIOR WEB DEVELOPER

Ministry of Inovation and Technology

Nov 2023 - Nov 2024

- worked on front-end development and integration for a document management system using Next.js, and REST API.
- Gathered and documented project requirements to ensure smooth project execution and alignment with stakeholders' goals.
- Utilized Jira for task tracking, sprint planning, and project management, improving team collaboration and project delivery efficiency.
- Coordinated with cross-functional teams to deliver key system features within deadlines.
